Summary

Backend-focused Software Developer with hands-on experience building RESTful APIs and full-stack web applications using Go, Python (Django), and PostgreSQL. Skilled in database management, third-party API integration, React.js and Docker.

Experience

KrtrimaIQ Cognitive Solutions May 2026 – Jul 2026

Backend Developer – Intern

- Developed features for an Intranet (internal employee management) portal.
- Automated attendance and timesheet tracking by developing Python scripts with Microsoft Graph API, delivering automated email notifications to employees.
- Designed and implemented Timesheet Management and Asset Management modules to make employee tracking easier and more efficient.

Technical Skills

Languages & Frameworks: Go, Python, C++, JavaScript, Gin, Django, React.js
Databases: PostgreSQL, MySQL, Redis
Tools & Platforms: Docker, Git, RabbitMQ

Projects

HookFlow | *Go, RabbitMQ, PostgreSQL* Link

- Developed a Webhook-as-a-Service platform for ingesting events and delivering webhooks to registered endpoints with JSON validation and unique event ID generation.
- Implemented an event-driven architecture using RabbitMQ for asynchronous message processing and a concurrent worker pool for handling multiple webhook deliveries.
- Integrated PostgreSQL connection pooling, message acknowledgments, and delivery processing to manage event persistence and handle transient failures.
- Designed the platform around multi-tenant support and scalable infrastructure to support isolated customer data, endpoint management, and reliable webhook delivery.

Memex | *Go (Gin), React.js, PostgreSQL, Cloudinary* Link

- Built a meme-sharing web application supporting upload, like, and explore functionality.
- Developed RESTful APIs with Gin and implemented JWT-based authentication for secure user sessions.
- Built a responsive React.js frontend and integrated it with the backend APIs.
- Designed PostgreSQL data models for users and memes and integrated Cloudinary for media storage.

Education

Smt. Indira Gandhi College of Engineering, Mumbai, Maharashtra Nov 2022 – May 2025

Bachelor of Engineering in Computer Science and Engineering *CGPA: 6.64*

(IoT and Cyber Security including Blockchain Technology)

S.H. Jondhale Polytechnic, Mumbai, Maharashtra Aug 2019 – Jul 2022

Diploma in Computer Engineering *81.14%*

Certifications

Python Programming Training | Ignitech Solutions Link

Google Cloud Computing Foundations | Google Cloud Link
